Automated Commercial Environment—Requirements Recommendation

Date:	May 15, 2001
Number:	BUS-007-DET
Requestor:	Business Applications of Technology Subcommittee
Customs Co-Chair:	(signature)
Trade Co-Chair:	(signature)

Requirement

Category: Account Profile

Provide users the web-based functionality to access and manage account profile data.

Business Need

Users need to be able to maintain and update account profile data such as points of contact, address, etc.

Technical Need

Leverage internet technologies to administer general account data.

Related Technology Areas:

Interface application.

Data management

Data standards

Security infrastructure

Benefits

Can be effectively maintained by the users.

Risks

Customs needs to maintain authority over creating and deleting accounts.

Higher overhead to manage authorized users and user turnover.

Need to ensure access to account data will be secure.

Users may not sufficiently maintain the information.
